

# The Money Clinic™: The Wealthy Mind I

Taught by Marilou Seavey

Sponsored by NLP Training Concepts, LLC

**This training will not be offered again until 2011**

**“The real key to creating the life of your dreams is achieving truly affluent states of mind.”**

“Big deal,” you say? Well, it is a big deal. In fact, this is the key to true lasting wealth—the secret that allows nearly anyone to become successful.

In the Wealthy Mind NLP Money Clinic you'll make a quantum leap from stress about your money situations—to clarity, creativity and deep satisfaction.

The Money Clinic is not a financial strategies program and it is far more than just goal setting or positive thinking. This is real change—real fast!

## **THE MONEY CLINIC IN DALLAS: Changing Limiting Beliefs with NLP**

One of the most common obstacles we face in building the life of our dreams is letting go of limiting beliefs and unproductive habits. The developers of The NLP Money Clinic have identified key beliefs and mental strategies that can prevent you from attaining and sustaining financial success and also the ones that can teach you to build incredible wealth in your life. While The Money Clinic has been developed through years of scientific research, it is presented in a friendly easy-to-grasp way.

### HAVE YOU EVER THOUGHT...

- You simply (and deeply) want to make more money and become more successful
- You want to double, triple, even multiply by ten the size of your business
- You've already achieved at least a modest success and want to springboard to greater things
- You know you could do a lot better in life with just a little help
- You realize that simply working harder can only get you so far, and you want more
- You know (or at least suspect) that money alone can't buy true happiness
- You've made a ton of money but haven't been able to enjoy it like you always thought you would
- You suspect there's got to be something more to life

### WHAT CAN YOU REALLY EXPECT FROM THE MONEY CLINIC?

It's true that many Money Clinic graduates do have immediate changes in their financial situations.

*“The day after the class I got a call out of nowhere for a new job,”*

*“I not only doubled my income in one year, but created more free time than I ever have had in my working career after attending the program.”*

*“The Money Clinic has been one of the best investments I have made in myself and my business. The workshop created a real shift in my perspective about my potential and readiness for success. Without any purposeful change in my immediate behavior, my business grew by over 25% in the first 30 days following the workshop! I highly recommend the Money Clinic to anyone who wants to break through a plateau in their business.*

*Teresa Pool, Professional Coach”*

But The **Money Clinic is the opposite of workshops where you get all hyped up and excited ...** and as the buzz wears off, so do the effects. Because The Money Clinic is not about adding something into your mind and life but, instead, about re-patterning the essential personal truths about wealth, the results you'll get don't fade away over time but rather become more generative as you continue to experience changes in the direction of your dreams.

Please don't think you'll sit there for three days while someone fills your head full of theories and motivational lectures. Nothing could be further from the truth. Over the course of an exhilarating, energizing, and experiential weekend you will be an active participant in your own inner design experience.

**Jan. 30-Feb 1, 2009**

**Time:**

**Fri. evening 2:30pm to  
9:30pm**

**Sat. 9:00am to 5:00pm**

today to register  
NOW.**

**Reservations  
Required.**

**Class size is limited**

**Location: Holiday Inn  
Express, I35 & NW  
Hwy**

## **IS IT REALLY WORTH IT?**

You bet it is. In fact, when past participants were asked if they'd do it all again the universal answer is, "Absolutely!" And when ask if they'd pay ten times the actual tuition (once they've actually experienced the dramatic jump in virtually all kinds of wealth they got as a result of their participation) they say, "Yes," too.

So how much do you have to invest to participate in The Money Clinic Training? Your entire tuition for The Money Clinic extended weekend is only \$495. But let's keep our eye on the ball ... we're talking about a small investment in the rest of your life. It's either a lot of money or a little...depending on how you look at it.

If you think of it as nothing more than a \$495 weekend, I'll admit it's not that inexpensive. But... If you consider how much more money you'll make from implementing just one good idea from the training, it's a pittance.

By the way, when you attend The Money Clinic , the entire room will be focused on your success. As you work with other like-minded participants, you'll explore, and gain additional competence. You'll benefit from both experiential and introspective discoveries. Believe me, you'll leave ready to soar over any obstacles that once stood in your way.

Where else can you receive three full days of complete immersion into insights and technologies that it has taken decades to study and perfect?

Don't you owe it to yourself, your family and your business to be at The Money Clinic? The only real risk is not attending, and not enjoying the life-changing benefits you get from The Money Clinic.

What are your goals for the next year? Really. Think about what you'd like to achieve financially, physically, emotionally, spiritually in the next year. Because 12 short months from now, you could be well on your way to meeting all your goals and making all your dreams come true... Or, you could be sitting in the same place, doing basically the same thing, and having the same un-acted on dreams... The choice is yours.
